The mountains are no longer off-limits for adventurous winter cyclists! Don't know much about this new winter sport? Well, fat bike tires are almost twice the size of regular summer mountain biking tires, allowing the cyclist to stay on top of the snow rather than fighting against it to move. ## SKI THE BIG THREE RESORTS AT BANFF NATIONAL PARK

Banff and Lake Louise is 100 per cent unique as a ski destination. One of the last wild places on earth, Banff National Park is a protected setting where development has been largely held at bay, and nature has been maintained in its true form. Banff and Lake Louise is home to three incredible ski resorts, all unique, and all easily accessible from any accommodation in the area.

**Banff Sunshine Village:** Home to the longest non-glacier ski season in Canada with a seven-month season that stretches from early November until late May. Sunshine can receive up to nine metres (30 feet) of snow in a season and the village's altitude of 7,200 feet ensures the snow stays light and dry. Sunshine Mountain Lodge is Banff National Park's only on-resort accommodation.

**Lake Louise Ski Resort:** Voted as the #1 Ski Resort in Canada three years in a row, Lake Louise Ski Resort is known for its spectacular scenery and versatile terrain. With over 4,200 acres spread across four mountain faces, Lake Louise is also one of the largest ski resorts in North America.

**Mt. Norquay:** Famous for being the training ground of Olympic and World Cup athletes, and with excellent beginner terrain, everyone will love this small, family-friendly resort. Mt. Norquay is home to the only night skiing in Banff National

Park on Fridays and Saturdays during the ski season.

## CROSS-COUNTRY SKI ON EXTENSIVE TRAIL NETWORKS

Each year, the high elevations of Banff and Lake Louise make it an early contender for winter's gift of fresh snow. As the terrain is smoothed under the falling snow, perfect conditions are created for one of Banff National Park's best kept secrets: premier cross-country-skiing in a beautiful mountain landscape. Whether you're looking for a leisurely ski or a rigorous workout, access is made easy with an extensive network of trails that are groomed and track-set for world-class cross-country skiing.

## ENJOY FAMILY-FRIENDLY TOBOGGANNING

Fairmont Chateau Lake Louise has a hill perfect for toddlers and youngsters, very close to the hotel. Although it is on the smaller scale, skating on the majestic lake is sure to please and fill afternoons with big smiles. Or, trade your toboggan for a tube and kick up the sliding speed a notch with Mt. Norquay's snow tube park. This activity is great for the whole family, with a kids play and small sliding area.

## INDULGE IN A WINTER PICNIC IN THE PARK

Who says picnics are just for warm sunny weather? Banff has a ton of great places to enjoy snowy sips and snacks, and the journey of getting there is just as fun as the reward. Whether you're fat biking, snowshoeing or cross-country skiing, these activities will give you a new perspective on a favourite summer pastime. Be sure to bundle up and go on a day that's not too chilly, and remember to be friendly to the National Park - pack out what you pack in.
